OBRC UPDATES

LINDA KARNAS- CHAIR

OBRC

- Last met on March 21st 2013
- Major work involves reviewing recent developments to provide constructive feedback to MCSS about changes to budget package, changes to regulations, changes in detail codes, etc. which have a significant cost or tracking impact on agencies (all without additional resources and in an environment of austerity)
- Feedback from DSFG on such issues allows for balanced view to take to MCSS to advocate for positive change for the sector
